Description of the beer:

Slaapmutske Bruin is a full-malt beer with top-fermentation and refermentation in the bottle. The beautiful deep-red color is obtained using a combination of different colour-malts. The alcohol percentage is 6,0 Vol%. By using colourmalts together with aromatic hops and some coriander we become a full, light sweet beer with a full-flavored, spicy after-taste. The foam is compact and creamy and covers the light sparkling beer.
